# EDXM Global Account

Updated 4 months ago

To configure your EDX Account and connect it to Fireblocks, perform the following steps.

## Configuring your EDXM Global Account

To connect EDXM Global to Fireblocks:

1. In your [EDXM Global portal](#), create a new API application.
2. Give it a name (e.g., Fireblocks Network Link).
3. Select the **MEMBER\_APP\_TREASURY\_MANAGEMENT** role.
4. Submit the application.
5. Copy the Client ID and Client Secret shown.

If your portal layout differs, follow EDXM Global's documentation or contact their support for the equivalent steps.

---

## Configuring Fireblocks

1. In your Console, navigate to **Accounts > Exchanges**.
2. Select **+ Connect account**.
3. Select appropriately:
  - a. **EDXM Global** for Production.
  - b. **EDX Markets UAT** for Testnet/UAT
4. Provide a Display name.
5. Paste the Client ID as the API Key.
6. Paste the Client Secret as the Secret.
7. Select **Connect account**.

The Admin Quorum must approve the new account to make it available for new transfers from your workspace. Your EDX account appears on the Exchanges page along with all managed assets and their balances. Following Admin Quorum approval, transfers are

In order to initiate deposits and withdrawals successfully, **EDXM Global requires whitelisting of both destination (withdrawal) wallet addresses and inbound wallet addresses that will receive deposits.** Steps on how to complete this are below:

1. Submit [EDXM Global SSI Wallet Whitelist Form](#) to EDXM Global.
2. Complete whitelisting and verification call with EDXM Global.

After these steps are complete, you can initiate transfers (deposits and withdrawals) from the Fireblocks console as needed.
