Transferring over the P2P Network

Updated 8 months ago

Overview

You can transfer assets from any source connected to your workspace to any P2P Network connection after the connection request is approved by both parties.

You can transfer directly to a connection from the P2P Network page or select the connection as a destination when you create a new transfer. [Learn more about withdrawing funds.](#)

Transferring from the P2P Network page

1. In the Fireblocks Console, go to **P2P Network > Connections**.
2. Find the profile containing the connection you want to transfer to and expand it by selecting the down arrow.
3. Find the connection you want to transfer to and then select  to create a transfer to that connection.
4. On the Transfer dialog, complete the transfer details. Note that the **To** field has been automatically populated with the connection.
5. When you're done, select **Transfer** to submit the transaction. Note that all transactions are subject to your workspace's policies and require approval accordingly.

Transferring using the Transfer button

1. In the Fireblocks Console, select **Transfer** on the left menu.
2. On the Transfer dialog, complete the transfer details. Use the **To** field to select the P2P Network connection to whom you want to transfer funds. You can filter the destinations further by selecting the **Network** tab from the field's drop-down.
