Minimum balance

Updated 4 months ago

Overview

Certain blockchains require asset wallets to hold a minimum balance (or *Base Reserve*) of the network's base asset. Any transactions that would cause an account's total balance to drop below this minimum balance will fail.

Minimum balance and additional reserve requirements vary depending on the blockchain and may change over time as the blockchain's needs expand.

The list below contains minimum balance information for assets supported on Fireblocks.

- **For most newly supported assets see [Blockchain data sheets on Fireblocks](#)**
- [Algorand \(ALGO\)](#): 0.1 ALGO
- [Kusama \(KSM\)](#): 0.000333333 KSM
- [Near \(NEAR\)](#): 0.00182 NEAR
- [Polkadot \(DOT\)](#): 1 DOT
- [Ripple \(XRP\)](#): 1 XRP; and 0.2 XRP per trust line
- [Solana \(SOL\)](#): 0.01 SOL
- [Stellar \(XLM\)](#): 0.5 XLM
- [TON](#): 0.000000001 TON
