Supported blockchain networks

Updated 2 months ago

Looking for supported assets and address types?

- For assets: [Globally listed assets](#)
- For address types: [Address Types and Formats](#)

Overview

The following is a list of blockchain networks supported by Fireblocks.

Want an EVM integration added to your workspace?

[Contact your Customer Success Manager](#) to discuss the prerequisites for integrating new EVM blockchains with Fireblocks.

Supported blockchain networks

For most newly supported assets, refer to [Blockchain data sheets on Fireblocks](#).

OG

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: OG

Abstract

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH

Aevo

Don't see what you're looking for? Log in for the full Help Center experience

 Fireblocks Help Center

Aleph Zero

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: AZERO

Algorand

- Account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: ALGO (Fireblocks asset ID: ALGO for mainnet, or ALGO_TEST for testnet)

Apechain

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: APE

Arbitrum One

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Rinkeby](#) (Testnet), [Sepolia](#) (Testnet)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH (Fireblocks asset ID: ETH-AETH, ETH-AETH_RIN for Rinkeby Testnet)

Astar

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: ASTR

Aurora

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: AURORA

Don't see what you're looking for? Log in for the full Help Center experience

 Fireblocks Help C

/

- Fees are paid using the base asset: AVAX (Fireblocks asset ID: AVAX for the mainnet, AVAXTEST for Fuji Testnet)

Axelar (AXL)

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: AXL (Fireblocks asset ID: AXL for the mainnet & for Testnet)

Babylon (BABY)

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: BABY

Base

- EVM-compatible account based blockchain
- Supported networks: [Mainnet](#), Goerli (testnet)
- Fees are paid using the Ethereum Network asset: ETH (Fireblocks Mainnet asset ID: BASECHAIN_ETH)

Berachain

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: BERA

Bitcoin

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

Bitcoin Cash

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

/

Blast

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: BLAST

BNB Smart Chain

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: BNB (Fireblocks asset ID: BNB_BSC for mainnet, BNB_TEST for testnet)

Bob

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH

Boom

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: BMC

Camino

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: CAM

Canto

- Account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: CANTO

 Fireblocks Help C

/

- Fees are defined by the network operator (no public gas asset)

Cardano

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

Celestia

- Account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: TIA

Celo

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Alfajores](#) (Testnet), [Baklava](#) (Testnet)
- [Foundation website](#)
- Fees are paid using the base asset: CELO (Fireblocks asset ID: CELO for mainnet, CELO_ALF for Alfajores Testnet, CELO_BAK for Baklava Testnet)

Centrifuge

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: CFG

Chiliz

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: \$CHZ (Fireblocks asset ID: CHZ_\$CHZ)

Codex

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH

/

- Fees are paid using the base asset: CORE

Cortex

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: CTXC

Cosmos Hub

- Account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

Cronos

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: CRO

Dash

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

DigitalBits

- Account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: XDB (Fireblocks asset ID: XDB for mainnet, XDB_TEST for testnet)

Dogecoin

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

dYdX (DYDX)

- UTXO-based blockchain

Don't see what you're looking for? Log in for the full Help Center experience

 Fireblocks Help C

/

eCash

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

EOS.IO

- Account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

Ethereum

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Sepolia](#) (Testnet), [Hoodi](#) (testnet)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH (Fireblocks asset ID: ETH for mainnet, ETH_TEST3 for Goreli Testnet, ETH_TEST5 for Sepolia Testnet)

Ethereum Classic

- Account-based blockchain
- Supported networks: [Mainnet](#), [Mordor](#) (Testnet)
- [Foundation website](#)

Ethereum Proof-of-Work (PoW)

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH (Fireblocks asset ID: ETHW)

Evmos

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: EVMOS (Fireblocks asset ID: EVMOS for mainnet)

Fantom Opera

- EVM-compatible account-based blockchain

Don't see what you're looking for? Log in for the full Help Center experience

/

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: VIC

Filecoin

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: FIL

Flare

- Account-based, opt-in blockchain; [contact support](#) to add this chain to your workspace
- Supported networks: [Mainnet](#)
- [Foundation website](#)

Flow

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: FLOW

Gevolut

- EVM-compatible account-based blockchain
- Supported networks: [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: PROOF

Gnosis

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#),
- [Foundation website](#)
- Fees are paid using the base asset: xDAI

Gunzilla

- EVM-compatible account-based blockchain

- Account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

HederaEVM

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: HEDERA

HT Chain

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: Houbi Token (Fireblocks asset ID: HT_CHAIN for mainnet, HT_CHAIN_TEST for testnet)

Humanity

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: H

HyperEVM

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: HYPE

Immutable zkEVM (IMX)

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: IMX (Fireblocks asset ID: IMX for the mainnet & for Testnet)

Initia

Injective (INJ)

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: INJ (Fireblocks asset ID: INJ for the mainnet & for Testnet)

Ink

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: INK

Iota

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: IOTA

lotex

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: IOTX

Kaia

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: KAIA

Katana

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH

/

- Fees are paid using the base asset: KAVA

Kusama

- Account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: KSM

Lachain

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: LAC

Linea

- EVM-compatible account-based blockchain
- Supported networks: [Linea Mainnet](#), [Linea Goerli Testnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH

Lisk

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH

Litecoin

- UTXO-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)

Lumia

- zkEVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: LUMIA

Manta

Don't see what you're looking for? Log in for the full Help Center experience

/

Mantle

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: MNT

Mirasmanda

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: GAS

Moonbeam

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- [Foundation website](#)
- Fees are paid using the base asset: GLMR (Fireblocks asset ID: GLMR_GLMR)
- **Important note**: We only support Ethereum-style transactions on this chain; Substrate transaction types (extrinsics) are not supported

Moonriver

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#)
- Fees are paid using the base asset: MOVR (Fireblocks asset ID: MOVR_MOVR)
- [Foundation website](#)
- **Important note**: We only support Ethereum-style transactions on this chain; Substrate transaction types (extrinsics) are not supported

Morph

- EVM-compatible account-based blockchain
- Supported networks: [Mainnet](#), [Testnet](#)
- [Foundation website](#)
- Fees are paid using the Ethereum Network asset: ETH
