Bitso account

Updated 8 months ago

Configuring your Bitso account

To configure your Bitso account to connect to Fireblocks:

1. Refer to the [Bitso.com API Documentation](#) to learn how to generate an API key.
2. When prompted to do so, enter the following information:
 - In the **API Name** field, enter "Fireblocks."
 - Leave the **Withdrawal Bitcoin Address** and **Withdrawal Ether Address** fields blank.
 - In the **Transaction PIN** field enter the PIN that was given to you when you created your Bitso account. If you forgot your PIN, you can reset it by contacting Bitso support.
3. Make sure you check the following permissions:
 - **Make withdrawals**
 - **View Balances**
 - **View account information**
 - **Place orders** (if using Bitso in conjunction with our [Payments feature](#))
4. After you confirm the validity of your new API key, copy and keep a record of both the API Key and Secret Key. You will need them when adding this exchange to your workspace.
5. If you want to add a Fireblocks IP address to your Bitso API account IP Whitelist, add the following IP address: 52.76.208.129.

Configuring Fireblocks

1. In the Fireblocks Console, go to **Accounts > Connected accounts**.
2. Select **+ Connect Account**.
3. Select **Bitso** and then complete the following fields:

 Fireblocks Help Center

/

The [Admin Quorum](#) must approve the new account to make it available for new transfers from your workspace.

Your Bitso account appears on the Exchanges page along with all managed assets and their balances. Following Admin Quorum approval, transfers are available from your vault accounts, whitelisted addresses, Fireblocks P2P Network connections, and other connected exchange accounts to your Bitso account.

Enabling withdrawals from Bitso

To enable exchange account withdrawals, see [this procedure](#).
