CoinMetro account

Updated 8 months ago

Configuring your CoinMetro account

To configure your CoinMetro account to connect to Fireblocks:

1. Refer to the [CoinMetro.com API Documentation](#) to learn how to generate an API key.
2. Name your new API Key "Fireblocks."
3. Copy and keep a record of the **CoinMetro account username**, **CoinMetro account password**, and **Two-Factor authentication key**. You will need them when connecting this exchange to your workspace.
4. Optionally, whitelist the following IP address: **52.76.208.129**

Configuring Fireblocks

1. In the Fireblocks Console, go to **Accounts > Connected accounts**.
2. Select **+ Connect Account**.
3. Select **CoinMetro**, and then complete the following fields:
 - a. **Name on Fireblocks**: Enter the name you want to give this exchange account on Fireblocks.
 - b. **Login**: Enter your **CoinMetro account username**.
 - c. **Password**: Enter your **CoinMetro account password**.
 - d. **Two-factor**: Enter your **Two-Factor authentication key**.
 - e. Select **Connect Account**.

The [Admin Quorum](#) must approve the new account to make it available for new transfers from your workspace.

Your CoinMetro account appears on the Exchanges page along with all managed assets and their balances. Following Admin Quorum approval, transfers are available from your vault
