Crypto.com account

Updated 8 months ago

Configuring your Crypto.com account

To configure your Crypto.com account to connect to Fireblocks:

1. Refer to the [Crypto.com API Documentation](#) to learn how to generate an API key.
2. When prompted to do so, name your new API Key "Fireblocks."
3. Copy and keep a record of both the **API Key** and **API Secret Key**. You will need them when connecting this exchange to your workspace.
4. Select **Enable Trading**.
5. Under IP access restrictions, select **Restrict**, delete the 0.0.0.0 address, and then add the following IP address: 52.76.208.129.

Configuring Fireblocks

1. In the Fireblocks Console, go to **Accounts > Connected accounts**.
2. Select **+ Connect Account**.
3. Select **Crypto.com**, and then complete the following fields:
 - a. **Name on Fireblocks**: Enter the name you want to give this exchange account on Fireblocks.
 - b. **API Key**: Enter the API key that you saved from Crypto.com.
 - c. **API Secret**: Enter the API Secret key that you saved from Crypto.com.
 - d. Select **Connect Account**.

The [Admin Quorum](#) must approve the new account to make it available for new transfers from your workspace.

Your Crypto.com account appears on the Exchanges page along with all managed assets and their balances. Following Admin Quorum approval, transfers are available from your
