Kraken, Kraken Futures and Kraken International sub-accounts

Updated 1 year ago

Overview

Fireblocks supports Kraken and Kraken international sub-accounts via exchange connectivity. Connect the exchange, and rebalance securely between your exchange's main account and sub-accounts on Fireblocks.

Important

- If you already have a Kraken or Kraken international sub-account connected to this workspace, you must remove it and then reconnect it.
- If you have a Kraken or Kraken international main account connected, you may need to remove it if the email field was left blank.

Configuring your Kraken or Kraken international sub-accounts

To configure your Kraken or Kraken international sub-account to connect to Fireblocks:

1. Refer to [Kraken.com API Documentation](#) for instructions on how to create a sub-account.
2. When prompted to do so, name your new API Key “Fireblocks.”
3. Copy and keep a record of both the API Key and Secret Key. You will need them when adding this exchange to your workspace.

 Fireblocks Help Center

FIREBLOCKS.

- b. **API Key:** Enter the API key that you saved from Kraken or Kraken International.
- c. **Private Key:** Enter the Private key that you saved from Kraken or Kraken International.
- d. Select **Connect Account**.

The [admin quorum](#) must approve the new account to make it available for new transfers from your workspace.

Your Kraken sub-account appears on the Exchanges page along with all managed assets and their balances. Following admin quorum approval, transfers will be available between this sub-account and its Kraken main account.
